

RIDGE TILE & RIDGE KIT COMPATIBILITY

- Ridge tiles are used at the highest point of the roof
- They provide both an aesthetic and practical purpose
- Designs vary to ensure you can find the perfect product for your roofing project

PRODUCT	DESCRIPTION	COMPATIBLE WITH EASY-TRIM DRY FIX RIDGE KITS
HALF ROUND RIDGE TILE	Half round ridge tiles are suitable for use on both the ridge and hip of the roof. They are primarily used on flat tile profiles or slate roofs and can be fitted with our Dry Fix Ridge Kit.	
DECORATIVE RIDGE TILE	Traditional crested ridge styles popular from the Victorian and Edwardian periods including 3 hole, club crested and fleur-de-lis.	Compatible with some decorative ridge tiles - we recommend to check with the ridge tile manufacturer first
CAPPED ANGLE RIDGE TILE	Angled ridge tiles which are capped at one end.	
ANGLED RIDGE TILE	Angled ridge tiles are suitable for use on both the ridge and hip of the roof. They are primarily used on flat tile profiles or slate roofs and can be fitted with our Dry Fix Ridge Kit.	
MONO RIDGE TILE	For use on mono ridge lines.	

Please note: There are variations of ridge tiles available on the market, therefore, the above compatibility is for guidance only
